PROPOSED \$10M ROAD IMPROVEMENT PROJECT

- ✓ Revenue has not kept up with ever increasing fixed costs and the Village has had to postpone necessary capital projects and purchases. The postponement of capital needs costs more money over time and substantially impacts service levels.
- ✓ We are losing our roads and we need a more robust road improvement plan or we will get even further behind.
- ✓ At this time the Village is on a 70 year street repaving cycle and this will get progressively worse if the funding is not there.
- ✓ The Village must spend over \$1M annually to get to a 35 year replacement cycle.
- ✓ A more robust road program ensures that our streets allow for safe travel and efficient maintenance. This in turn will demonstrate a community that is well maintained, reflecting on the quality of life for residents and the preservation of strong property values.

The proposed \$10 Million Road Improvement Project includes:

- ✓ Resurfacing 26% or nine miles of our roads that are in most need of repair
- ✓ Completed within 6 years

Thank you for taking the time to learn more about the proposed road improvement plan. Extensive work has gone into developing cost effective solutions to our highest priority needs. Please also visit our website for more information.

Proposition: Shall the Village of La Grange Park, Cook County, Illinois, undertake road improvements in and for the Village, including street resurfacing and sidewalk repair, all on property owned by the Village or over which the Village has sufficient easements, and issue its general obligation bonds to the amount of \$10,000,000 for the purpose of paying the costs thereof, said bonds bearing interest at not to exceed the rate of 6.00% per annum?
